

ABSTRACT+ OF THE DISCLOSURE

A remote control, operating an ~~en-on~~-screen set-top box (STB) menu, has a force sensitive resistor (FSR) for coarse or free
5 navigation and a key-pad, placed around the FSR, for fine navigation. A user gets feedback by ~~means of a~~ highlighted item or an ~~en-on~~-screen cursor when operating the FSR and by ~~means of the~~ highlighted item for ~~elose~~-close-by navigation. Pushing down on the FSR-~~that~~, which also doubles as an OK- or select-key, can
10 ~~result~~results in the selection of highlighted option-~~selection~~.

ABSTRACT OF THE DISCLOSURE

A remote control, operating an on-screen set-top box (STB) menu, has a force sensitive resistor (FSR) for coarse or free
5 navigation and a keypad, placed around the FSR, for fine
navigation. A user gets feedback by a highlighted item or an on-
screen cursor when operating the FSR and by the highlighted item
for close-by navigation. Pushing down on the FSR, which also
doubles as an OK- or select-key, results in the selection of
10 highlighted option.
